

InfraVia and Tiger Infrastructure Invest in Etix Everywhere

Luxembourg, Paris, New York (February 10, 2015) – Etix Everywhere (“Etix Everywhere” or the “Company”) announced that it received a growth capital investment from InfraVia Capital (“InfraVia”) and Tiger Infrastructure Partners (“Tiger”). InfraVia and Tiger will together own a significant stake in the Company.

Founded in late 2012 and headquartered in Luxembourg, Etix Everywhere designs, builds, installs and operates innovative and differentiated datacenters. Etix Everywhere offers a modular design which can be scaled quickly to a customer’s needs with state-of-the-art monitoring at a competitive cost. An Etix Everywhere datacenter provides best-in-class redundancy and energy efficiency levels.

“Etix Everywhere has developed a unique concept for datacenters which addresses the fast growing global demand for reliable communications infrastructure, outsourced IT, cloud, data handling and security,” said Emil Henry, managing partner of Tiger Infrastructure Partners. “We are excited to partner with the company’s founders and InfraVia and look forward to helping Etix Everywhere grow.”

“We have been impressed with the feedback from blue-chip customers that use the Etix Everywhere datacenter solution and believe the company has a bright future, as the next generation of datacenters is built,” added Vincent Levita, Founder and Chief Executive Officer of InfraVia. “We are delighted to partner with Tiger and believe Etix Everywhere will benefit greatly from the experience, international reach and resources of both firms.”

“With blue-chip institutional financial partners such as InfraVia and Tiger we are well positioned to capitalize on the growing demand for our innovative datacenters in several international markets,” said Charles-Antoine Beyney, Chief Executive Officer and founder of Etix Everywhere. “We believe our solutions represent the next generation of datacenters, and the expertise and support of InfraVia and Tiger will help fuel our expansion.”

About Etix Everywhere

Etix Everywhere specializes in the construction and operation of modular local datacenters.

Based in Luxembourg, the company founded in late 2012 has developed its own datacenters architecture that can be deployed within 16 weeks. Etix Everywhere constructs turnkey data centers for large customers and develops also its own colocation datacenter network in which are provided hosting services.
